MUSIC & ME Classes

For children ages 2-3 (along with the participation of a guardian), Music & Me classes are a great way for children to grow and develop their skills while at the same time learning new and exciting things about music. These classes include body movements, motions, and directional associations, rhythms, singing, music games, children-friendly instruments, shakers, whistles, and group activities. These classes also reinforce things such as movement control, colors, numbers, and words. Keeping your children active and learning in a group setting is also a great preparation for preschool or kindergarten. Contact Motion Studio to enroll.
